# 2015 Traffic Volume Report

## *Serving the communities of:*

Amesbury – Andover – Boxford – Georgetown – Groveland

Haverhill – Lawrence – Merrimac – Methuen – Newbury

Newburyport – North Andover – Rowley – Salisbury – West Newbury

The preparation of this report has been financed under contract with MassDOT,  
with the cooperation of the Federal Highway Administration.

## Traffic Volume Report Introduction

The Merrimack Valley Planning Commission (MVPC) presents the *2015 Traffic Volume Data Report* for each of the 15 communities in the Merrimack Valley region. This report contains a variety of traffic data charts, maps and copies of the 48-hour traffic volume counts taken by the MVPC last year and represents the most comprehensive listing of traffic volume information available in our region.

The traffic counting program at the MVPC serves numerous functions. Volume data collected by the MVPC is used by Federal Highway Administration as part of their formula to allocate highway funding to the states. Private sector firms use this information to assist in making business location decisions. The MVPC relies on these counts to help maintain its regional traffic model (the program used to project traffic demand in the region), and to determine if the region is meeting the requirements of the Clean Air Act. Local officials often use this data to gauge the effects of traffic on local roads and neighborhoods. And finally, state officials use the volume data collected by the MVPC to assist them in the development and implementation of the management systems.

The traffic volumes in this report are presented by Average Daily Traffic (**ADT**). The ADT results from traffic counts taken for a consecutive 48-hour period and averaged out over the two-day time frame; however, because of uncontrollable factors (i.e. mechanical failure, weather, etc.), the ADT may also be taken from a 24-hour count period. The ADT are measures of the traffic volume in either one or both directions. All such details are indicated in each volume report. Please note that the MVPC traffic counts are unadjusted volume totals for average weekday traffic and are not seasonally adjusted.

In 2015, MVPC successfully collected traffic volume data from 110 locations throughout the 15 community region. Along with the individual traffic count information, this report contains a 10 year history of all traffic counts conducted throughout the Valley.

The collection and tabulation of traffic data, as well as the writing and publication of this report, was carried out by Daniel A. Ovalle, Field Services Specialist, under the direction of Anthony Komornick, Transportation Program Manager.

## 2015 MDOT Traffic Count Locations

### Merrimack Valley Planning Commission

160 Main St

Haverhill, MA 01830

#### 2015 MassDOT Requested Traffic Count Locations

Station #	City/Town	Route/Street	Location	ADT-Month
5054	Andover	Haggetts Pond Rd	At Rte I-495 Overpass	2304-SEP
5055	Andover	Lupine Rd	S of School St	1646-NOV
5050	Boxford	Ipswich Rd	W of Georgetown Rd	3899-JUN
5036	Haverhill	Newton Rd	At NHSL	5731-JUN
5037	Haverhill	Amesbury Rd	N of Rte I-495	13905-SEP
5043	Lawrence	General St	W of Prospect St	7497-OCT
5012	Lawrence	Haverhill St	E of Rte 110/Jackson St	8998-OCT
5017	Lawrence	Spruce St	S of Park St	5269-OCT
5046	Merrimac	Locust St	S of Rte I-495	1674-JUN

5106	Methuen	Oakland Ave	E of Rte 110 /Lowell St	4916-NOV
5029	Methuen	Pelham St	S of Hampshire Rd	3095-SEP

[Table 1.1]

Each year MassDOT assigns each of the Massachusetts RPA's specific locations that are to be included in the traffic counting program for that year. These locations are selected by MassDOT and occur on a three-year cycle. The Station number, City/Town, Route/Street, Location and Average Daily Traffic volume for weekday totals are indicated above, along with the month of the year that each study was conducted. Wherever possible, classification and speed data have been acquired along with the volume totals. Not all locations allow for such a study, due to factors of population density, high volume and roadway geometry.

## 2015 Regional Traffic Count Index

Regional Traffic Index - Annual Traffic Count Coverage

[Table 1.2]

The Merrimack Valley Planning Commission (M.V.P.C.) established the 'Regional Traffic Index' in 1990 to monitor general traffic volume trends throughout the Merrimack Valley Region. The traffic counting program has, since then, been conducted at the same location each year using automatic traffic recorders placed at twenty strategic sites. Each traffic count consists of a 48 hour duration and is taken during the same month from year to year when possible. The data shown in this chart lists the individual count locations with a five year history of average weekday volume totals for those sites.

Although this data provides a descriptive tabulation of average daily traffic, it should be mentioned that this index is not meant to be used to predict future volumes. Its purpose is to provide an estimated index of volumes in the region, and should not be used in financial or developmental decision making or planning.

## Top 25 Traffic Volume Locations

<b>Top 25 Volume Locations for 2015</b>
