

CONNECTExplorer Training

Learn how to maximize your usage of CONNECT!

CONNECTExplorer is a web-based application tool for analyzing and viewing oblique (45-degree angle) imagery and standard orthophotography (straight down) imagery.

Welcome to our Training Webinars!

Listed below is the session that is available for CONNECTExplorer training. You will be directed to the online registration page by clicking on the link below. You will only need to register once for either or both sessions.

CONNECTExplorer Foundations Training Session – 60 minutes 10:00 – 11:00 am

This training session focuses on building your understanding of image navigation, use of GIS data through searches and visual display, basic measurement tools, and image exporting.

CONNECTExplorer Workplaces and Advanced Tool Training Session – 60 minutes 11:00 – 12:00 noon

Take your knowledge of CONNECTExplorer deeper by using advanced analytic and annotation tools within a workspace, and how to save and share your mockups and plans with colleagues.
