

## Newbury Town Landing

The Newbury Town Landing located off Route 1A immediately north of the Parker River crossing has 50+/- unpaved parking spaces for residents only. The ramp can be used by the public for put in and take out purposes, however no parking is allowed in the lot without a Town of Newbury sticker. Access to the water is good at all tides and there is a float dock for loading and unloading. The river current often is quite strong, especially when combined with an outgoing tide. Powerboat activity is also a potential navigational hazard for non-motorized boats.
